Key Concepts in Politics and International Relations-Andrew Heywood 2015-07-07 This accessible guide to the major concepts in politics has now been revised and expanded to include over 60 international relations terms to take account of the increasing influence of globalization upon politics. Each concept is defined clearly and fully, and its significance for political understanding is explored.

Politics: The Key Concepts-Lisa Harrison 2013-04-29 From action research to validity, this innovative and informative text is an invaluable guide to a variety of core research concepts in both political science and international relations. Key Features: - Each entry is consistently structured, providing: a clear definition, a focused explanation, a summary of current debates and areas of research, further reading, and references to other related concepts. - Explains how and why particular research methods are used and highlights alternative research concepts and strategies. - Cross-relates entries, enabling you to dip in to topics and follow threads throughout the book. - Packed with illuminating examples to help you to apply theory to the 'real world' of political analysis. An essential companion for students of Politics and International Relations at both undergraduate and postgraduate levels.

Key Concepts in Political Geography-Carolyn Gallaher 2009-04-22 "A comprehensive reader for my political geography course. Good summaries at the end, and articles include effective case study examples." - Rachel Paul, Western Washington University "A very useful and comprehensive introduction to key concepts in political geography. This book provides useful context not just for 'traditional' political geography modules, but also those examining broader issues of power, resistance and social movements." - Gavin Brown, University of Leicester "Vital for introducing basic concepts and terminology in a clear and concise fashion. The short chapters are accessible and well supplemented with pertinent examples." - Daniel Hamnett, Sheffield University "I found the book to be very useful in a supplemental capacity, full of information that would be useful for an undergraduate or early graduate student." - Jason Dittmer, University College London This textbook forms part of an innovative set of companion texts for the human geography subdisciplines. Organized around 20 short essays, Key Concepts in Political Geography provides a cutting-edge introduction to the central concepts that define contemporary research in the field. Involving detailed yet expansive discussions, the book includes: An introductory chapter providing a succinct overview of the recent developments in the field Over 20 key concept entries covering the expected topics and follow threads throughout the book. - Packed with illuminating concepts and strategies. - Cross-relates entries, enabling you to dip in to topics and follow threads throughout the book. - Packed with illuminating examples to help you to apply theory to the 'real world' of political analysis. An essential companion for students of Politics and International Relations at both undergraduate and postgraduate levels.

International Relations: The Key Concepts-Martin Griffiths 2013-03-01 First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Fascism-Roger Griffin 2018-06-11 The word ‘fascism’ sometimes appears to have become a catch-all term of abuse, applicable to anyone on the political right, from Hitler to Donald Trump and from Putin to Thatcher. While some
argue that it lacks any distinctive conceptual meaning at all, others have supplied highly elaborate definitions of its ‘essential’ features. It is therefore a concept that presents unique challenges for any student of political theory or history. In this accessible book, Roger Griffin, one of the world’s leading authorities on fascism, brings welcome clarity to this controversial ideology. He examines its origins and development as a political concept, from its historical beginnings in 1920s Italy up to the present day, and guides students through the confusing maze of debates surrounding the nature, definition and meaning of fascism. Elucidating with skill and precision its dynamic as a utopian ideology of national/racial rebirth, Griffin goes on to examine its post-Second World War mutations and its relevance to understanding contemporary right-wing political phenomena, ranging from Marine Le Pen to Golden Dawn. This concise and engaging volume will be of great interest to all students of political theory, the history of political thought, and modern history.

Key Concepts in Governance—Mark Bevir 2008-12-18 'A comprehensive, multidisciplinary examination of the concepts embodied in governance and their wide-ranging applications and implications. An important read and reference for students and academics in the social sciences, particularly those engaged in public policy studies' - Professor Carolyn J. Heinrich, University of Wisconsin-Madison 'An authoritative short survey for which students and teachers alike will be profoundly grateful' - Professor Rod Rhodes, University of Tasmania and Australian National University 'Students of governance will welcome this book given the explosion of literature in the field. It provides a quick guide to key concepts and ideas but does so with considerable originality. We are offered not just a review of well-established positions but a distinctive take on the governance debate' - Gerry Stoker, Professor of Governance, University of Southampton The language of governance has risen to prominence in the last 20 years as a way of describing, explaining changes in the nature and role of the state, but the concepts involved can be confusing as they are often new and come from diverse disciplinary and theoretical settings. Key Concepts in Governance provides a clear introduction to the technical concepts and policies of contemporary governance through short definitional essays. Each entry features: ‘a snapshot definition of the concept’; ‘a contextualisation of the concept’; ‘an overview of relevant debates’; ‘a guide to further reading’. The book also includes a substantial introductory chapter which gives an overview of governance studies as a whole, orientating and guiding the reader around the issues that the concepts address. Highly readable, with cross-referencing, this is an ideal book for students on introductory courses and an indispensable resource for anyone interested in governance.

Basic Political Concepts—Paul Delepinasse 2009-09-01 Social Movements: The Key Concepts—Graeme Chesters 2010-10-04 Social Movements: The Key Concepts provides an insightful, contemporary introduction to some of the frequently encountered terms and groups that are central to the study of collective action and social and political activism. Following an A-Z format, the entries defined and discussed are drawn from the following areas of social movements of the nineteenth century the ‘new’ social movements of the 1960s and 1970s the rise of contemporary ‘network movements’ Key American, European and global social movements are addressed, with each entry related to contemporary developments and emerging trends within the field. Including helpful references for further study, this concise and up-to-date guide is of relevance for those studying a range of disciplines, including sociology, politics, cultural studies and human geography.

Globalization—Thomas Hylland Eriksen 2014-02-13 For the first time in human history, the vast majority of the world’s population is connected through trade, travel, production, media and politics. Ours is an era of ubiquitous mobile communication, economic outsourcing, mass migration and imported consumer goods. At the same time, people everywhere are concerned to keep their identities rooted and sense of place in the face of momentous change. This new edition of Thomas Hylland Eriksen’s concise and engaging landmark textbook outlines the main debates and controversies around globalization, and develops a particular perspective to show how globalization is an inherently double process, taking place both from above and below. Each chapter is supported by boxed case studies and bullet points summarizing the core information, suggestions for further reading, and essay and discussion questions, making this the ideal guide for both the classroom and independent study. Focusing on key concepts of globalization and drawing on international examples, this book is essential for anyone wishing to understand the fundamental processes underlying the contemporary world and the consequences these have for all of us.

Understanding theories and concepts in social policy—Ruth Lister 2010-06-01 A central theme of this lively and accessible text is that theory helps us to understand policy, politics and practice. The book combines an in-depth exploration of selected theoretical perspectives and concepts with the student-friendly format of the Understanding Welfare series. The author uses diverse examples from contemporary social policy to help theoretical arguments come alive. It should provide a key text for 2nd and 3rd year undergraduates and postgraduates in social policy and related subjects, as well as their teachers.

Neoliberalism—Matthew Eagleton-Pierce 2016-05-20 Neoliberalism: The Key Concepts provides a critical guide to a vocabulary that has become globally dominant over the past forty years. The language of neoliberalism both constructs and expresses a particular vision of economics, politics, and everyday life. Some find this vision to be appealing, but many others find the contents and implications of neoliberalism to be alarming. Despite the popularity of these concepts, they often remain confusing, the product of contested histories, meanings, and practices. In an accessible way, this interdisciplinary resource explores and dissects key terms such as: Capitalism Choice Competition Entrepreneurship Finance Flexibility Freedom Governance Market Reform Stakeholder State Complete with an introductory essay, cross-referencing, and an extensive bibliography, this book provides a unique and insightful introduction to the study of neoliberalism in all its forms and disguises.

Gender—Mary Evans 2013 This invaluable volume provides an overview of 37 terms, theories and concepts frequently used in gender studies which those studying the subject can find difficult to grasp. Each entry provides a critical definition of the concept, examining the background to the idea, its usage and the major figures associated with the term. Taking a truly interdisciplinary and global view of gender studies, concepts covered include: Agency Diaspora Heteronormativity Subjectivity Performativity Class Feminist Politics Body Gender identity Reflexivity. With cross-referencing and further reading provided throughout the text, Gender: The Key Concepts unveils the relationships between different aspects of the field defined as gender studies, and is essential for all those studying gender in interdisciplinary contexts as undergraduates, postgraduates and beyond.

Music and Politics—James Garratt 2018-11-08 Changes our picture of how music and politics interact through a rigorous and wide-ranging reappraisal of the field.

Cultural Theory: The Key Concepts—Andrew Edgar 2007-10-18 Now in its second edition, Cultural Theory: The Key Concepts is an up-to-date and comprehensive survey of over 350 of the key terms central to cultural theory today. This second edition includes new entries on: colonialism cyberculture globalisation terrorism visual studies. Providing clear and succinct introductions to a wide range of subjects, from feminism to postmodernism, Cultural Theory: The Key Concepts continues to be an essential resource for students of literature, sociology, philosophy and media and anyone wrestling with contemporary cultural theory.

Concepts in World Politics—Felix Berenskoetter 2016-08-09 Recognizing the vital importance of concepts in shaping our understanding of international relations, this ground-breaking new book puts concepts front and centre, systematically unpacking them in a clear, critical and engaging way. With contributions from some of the foremost authorities in the field, Concepts in World Politics explores 17 core concepts, from democracy to globalization, sovereignty to revolution, and covers: the multiple meanings of a concept, where these meanings come from, and how they are employed theoretically and practically. The consequences of using concepts to frame the world in one way or another. The method of concept analysis. A challenging and stimulating read, Concepts in World Politics is an indispensable guide for all students of international relations looking to develop a more nuanced and sophisticated understanding of world politics.
key-concepts-in-politics-pdf
practitioners and students around the world. A basic companion for researchers, students, and teachers, this sourcebook outlines the key concepts that make the field prominent in the sphere of Arts Education.

**Jurgen Habermas**-Barbara Fultner 2014-12-05 A rare systematic thinker, Habermas has furthered our understanding of modernity, social interaction and linguistic practice, societal institutions, rationality, morality, the law, globalization, and the role of religion in multicultural societies. He has helped shape discussions of truth, objectivity, normativity, and the relationship between the human and the natural sciences. This volume provides an accessible and comprehensive conceptual map of Habermas' theoretical framework and its key concepts, including the theory of communicative action, discourse ethics, his social-political philosophy and their applications to contemporary issues. It will be an invaluable resource for both novice readers of Habermas and those interested in a more refined understanding of particular aspects of his work.

Understanding Policy Change-Cristina Corduneanu-Huci 2012-11-09 This book provides the reader with the full panoply of political economy tools and concepts necessary to understand, analyze, and integrate how political and social factors may influence the success or failure of their policy goals.

The Political Value of Time-Elizabeth F. Cohen 2018-03-01 Waiting periods and deadlines are so ubiquitous that we often take them for granted. Yet they form a critical part of any democratic architecture. When a precise moment or amount of time is given political importance, we ought to understand why this is so. The Political Value of Time explores the idea of time within democratic theory and practice. Elizabeth F. Cohen demonstrates how political procedures use quantities of time to confer and deny citizenship rights. Using specific dates and deadlines, states carve boundaries around a citizenry. As time is assigned a form of political value it comes to be used to transact over rights. Cohen concludes with a normative analysis of the ways in which the devaluation of some people's political time constitutes a widely overlooked form of injustice. This book shows readers how and why they need to think about time if they want to understand politics.

Research Methods in Politics-Peter Burnham 2008-06-17 The second edition of this popular text provides a comprehensive introduction to the main research methods employed in the study of politics and assessment of their strengths and limitations and of ethical issues in research. It has been revised and updated throughout, and a new chapter considers the relationship between research and policy.

Key Concepts in International Relations-Thomas Diez 2011-05-09 International relations is a vibrant field of significant growth and change. This book guides students through the complexities of the major theories of international relations and the debates that surround them, the core theoretical concepts, and the key contemporary issues. Introduced by an overview of the discipline's development and general structure, the more than 40 entries are broken down as follows: Parts two introduces the key theories and each chapter engages "A note on methodology" a review of empirical applications" a guide to further reading and useful websites Part three discusses the major concepts and for each concept provides: " An introduction to the core questions " An overview of the definitions and theoretical perspectives " A review of empirical problems " Links to other entries, further reading and useful websites Clear and highly readable, Key Concepts in International Relations is an essential guide for students on politics and international relations courses.

Key Concepts in Public Archaeology-Gabriel Mosheńska 2017-09-28 This book provides a broad overview of the key concepts in public archaeology, a research field that examines the relationship between archaeology and the public, in both theoretical and practical terms. While based on the long-standing programme of undergraduate and graduate teaching in public archaeology at UCL's renowned Institute of Archaeology, the book also takes into account the growth of scholarship from around the world and seeks to clarify what exactly 'public archaeology' is by promoting an inclusive, socially and politically engaged vision of the discipline. Written for students and practitioners, the individual chapters provide textbook-level introductions to the themes, theories and controversies that connect archaeology to wider society, from the trade in illicit antiquities to the use of digital media in public engagement. A note review " a discussion of methodologies " a review of empirical applications" a guide to further reading and useful websites Clear and highly readable, Key Concepts in International Relations is an essential guide for students on politics and international relations courses.

Political Ideologies-Andrew Heywood 2017-02-16 A clear and accessible introduction to the political creeds and doctrines that have dominated and shaped politics around the world. The sixth edition has been thoroughly updated throughout and now has a new chapter on the rise of religious politics and Islamism and an improved page design to aid student learning.

Political Affect-John Protevi 2009 Political Affect investigates the relationship between the social and the somatic: how our bodies, minds, and social settings are intricately linked. Bringing together concepts from science, philosophy, and politics, he develops a perspective he calls political physiology to indicate that subjectivity is socially conditioned and sometimes bypassed in favor of a connection of the social and the somatic, as with the politically triggered emotions of rage and panic.
